Toposym 4-B

List of communications

LIST OF COMMUNICATIONS

Aarts,J.M.: Aarts,J.M.
and Lowen-Colebunders,E.   On an example of Mary Ellen (Estill) Rudin
(Presented by E.Lowen-Colebunders)

Alexiewicz,A.   Two-norm algebras

Alster,K.: Alster,K.
and Zenor,P.   Preservation of the Lindelöf property in
product spaces (Presented by P.Zenor)

Anantharaman,R.:
Anantharaman,R. and
Naimpally,S.A.   Equicontinuity, nonexpansiveness and uni-
form boundedness (Presented by S.A.Naim-
pally)

Arya,S.P.   On a theorem of Michael-Morita-Hanai

Atsuji,M.   On normality of the product of two spaces

Baayen,P.C.   Maximal linked systems in topology

Balogh,Z.   Relative compactness and recent common
generalizations of metric and locally com-
pact spaces

Banaschewski,B.   Sheaves of Banach spaces

Bellamy,D.P.   Indecomposable continua with one and two
composants

Błaszczyk,A.   On a factorization lemma and a construction
of absolute without separation axioms

Bogatyj,S.A.   On preservation of fixed point property by
continuous mappings

Bognár,M.   On locally ordered spaces

Boseck,H.: Boseck,H.
and Czichowski,G.   Structure of connected locally compact
groups (Presented by H.Boseck)

Byczkowski,T.   On closed graph and open mappings
theorems

Čerin,Z.   Homotopy theory at ∞ and the theory of
shape

Chaber,J.   On θ-refinability

Charalambous,M.G.   A note on the dimension of products

Charatonik,J.J.   Problems nad remarks on contractibility of
curves

Chattopadhyay,K.C.:
Chattopadhyay,K.C. and
Thron,W.J.   Extensions of closure spaces (Presented by
                              W.J.Thron)

Chvalina,J.   Set transformations with centralizers formed
                              by closed deformations of quasi-discrete
                              topological spaces

Čoban,M.M.: Nedev,S.J.
and Čoban,M.M.   Odno priloženie faktorizacionnych teorem
                              dlja mnogoznačnych otobraženiĭ (Presented
                              by S.J.Nedev)

Császár,K.   Separation and connectedness
Czichowski,G.:
Boseck,H. and
Czichowski,G.   Structure of connected locally compact groups
                              (Presented by H.Boseck)

Dobrakov,I.   Products of operator valued measures and
                              the Fubini theorem

Doitchinov,D.   The notion of $\mathcal{K}$-shape
Domiaty,R.Z.   Remarks to the problem of defining a topology
                              by its homeomorphism group

Durdil,J.   On the geometric characterization of
                              differentiability

Dyckhoff,R.   Topology in a spatial topos
Fabian,M.   On singlevaluedness and continuity of monoto-
                              ne mappings

Flachsmeyer,J:
Flachsmeyer,J. and
Terpe,F.   On convergence structures in the space of
                              summations (Presented by F.Terpe)

Fleissner,W.G.   Box products of Baire spaces
Frič,R.: Frič,R. and
Koutník,V.   Sequentially complete spaces (Presented by
                              R.Frič)

Gähler,S.   On generalized topological vector spaces
Gähler,W.   On limit spaces and limit-uniform spaces
Gerlits,J.   On dyadic and λ-adic spaces
Gierz,G.: Gierz,G. and
Keimel,K.   A lemma on primes appearing in algebra and
                              analysis (Presented by G.Gierz)

Govaerts,W.   Categories of continuous function spaces

Grimeisen,G.	The limit inferior of a filtered set-family as a set of limit points
Hajdiivanov,N.	O razmernosti metričeskich i kompaktnych prostranstv
Hajek,D.W.	Wallman extendible functions with normal domains
Hamburger,P.	A generalization of uniform open basis
Heinrich,S.	Linear-topological properties of operator spaces
Hejcman,J.	Covering dimensions and partitions of unity
Henriksen,M.	Spaces that have a compactification with a countable remainder
Holický,P.	On a characterization of completely additive families
Hoshina,T.	Compactifications by adding a countable number of points
Iliadis,S.	O nepodvižnych točkach pri nekotorych otobraženijach kompaktov
Ivanov,A.A.	Fixed point theorems of metric space mappings
Ivanšić,I.	Embedding compacta up to shape
Iwanik,A.	On two-sided nonsingular transformations of Borel spaces
Jayne,J.E.	Analytic sets of extreme points of closed convex sets
Jeschek,F.: Jeschek,F., Poppe,H. and Stärk,A.	A compactness criterion for the space of almost periodic functions (Presented by H.Poppe)
Kartsaklis,A.	Topological considerations in the foundations of quantum mechanics and space-time theories
Katětov,M.	Descriptive complexity of functions
Katuta,Y.	Monotone increasing covers and paracompactness
Kaul,S.K.	Regularity: A generalization of equicontinuity
Keimel,K.	On structure spaces of vector lattices
Keimel,K.: Gierz,G. and Keimel,K.	A lemma on primes appearing in algebra and analysis (Presented by G.Gierz)
Kent,D.C.: Kent.D.C. and Richardson,G.D.	Some product theorems for convergence spaces (Presented by D.C.Kent)

Kneis,G.

The theorem of Arzela-Ascoli in pseudo-uniform spaces

Koutník,V.: Frič,R. and
Koutník,V.

Sequentially complete spaces (Presented by R.Frič)

Kratochvíl,P.

Multisequences and measure theory

Kulpa,W.

On decomposition into nowhere dense sets

Kurepa,D.

On monotone mappings of ordered sets

Kůrková,V.

Fine and simply fine uniform spaces

Kuz´minov,V.I.: Kuz´minov,V.I. and Švedov,I.A.

O gomologičeskoĭ razmernosti Bredona nasledstvenno parakompaktnych prostranstv (Presented by V.I.Kuz´minov)

Lokucievskij,O.V.

Axiomatic definition of the dimension for bicompacta

Lowen,R.

Convergence in the lattice of lower semicontinuous functions

Lowen-Colebunders,E.:
Aarts,J.M. and Lowen-
-Colebunders,E.

On an example of Mary Ellen (Estill) Rudin (Presented by E.Lowen-
-Colebunders)

Lüschow,R.B.

Some topological properties of SM-spaces

Maćkowiak,T.

Planable and smooth dendroids

Marek,I.

Fredholm points of compactly perturbed bounded linear operators

Marjanović,M.

Some considerations related to hyperspaces

Meletiou,G.

Families of "partially coinciding" topologies

Van Mill,J.

Recent results on superextensions

Minc,P.

Local connectedness and fixed points

Mioduszewski,J.

Compact Hausdorff spaces with two open sets

Mislove,M.W.

The maximal ideal space of the measure algebra of certain semigroups

Močkoř,J.

Topological groups of divisibility

Müller,B.	T_3 - completions of convergence vector spaces
Musial,K.	The weak Radon-Nikodym property in Banach spaces
Musielak,J.	An application of modular spaces to integral equations
Musielak,J.: Musielak,J. and Waszak,A.	Some problems of convergence in countably modulared spaces (Presented by J.Musielak)
Mysior,A.	The category of all zero-dimensional real-compact spaces is not simple
Nagy,Z.	On countably compact, locally countable spaces
Naimpally,S.A.: Anantharaman,R. and Naimpally,S.A.	Equicontinuity, nonexpansiveness and uniform boundedness (Presented by S.A.Naimpally)
Nedev,S.J.: Nedev,S.J. and Čoban,M.M.	Odno priloženie faktorizacionnych teorem djla mnogoznačnych otobraženii (Presented by S.J.Nedev)
Nel,L.D.	Subcategories with cartesian closed coreflective hulls
Nelson,E.	Algebras of continuous functions in universal algebra
Nešetřil,J.: Nešetřil,J. and Rödl,V.	Some topological Ramsey-type problems (Presented by J.Nešetřil)
Neubrunn,T.	Separate continuity and continuity for some generalized continuity notions
Novák,J.	Concerning the Cartesian product of two Fréchet spaces
Nyikos,P.J.	Countable small rank and cardinal invariants
Pareek,C.M.	On dense subspaces of stratifiable and semi-stratifiable spaces
Patkowska,H.	A class α and compacta which are quasi--homeomorphic with surfaces

Patronis,A.: Stavrinos,P. and Patronis,A.	On hyperspace of continuous curves and continuous hyperspaces of any order (Presented by P.Stavrinos)
Pelant,J.: Pelant,J. and Reiterman,J.	Atoms in uniformities and proximities (Presented by J.Pelant)
Pol,E.: Pol,R. and Pol,E.	A hereditarily normal strongly zero- -dimensional space containing subspaces of arbitrarily large dimension (Presented by R.Pol)
Pol,R.: Pol,R, and Pol,E.	A hereditarily normal strongly zero- -dimensional space containing subspaces of arbitrarily large dimension (Presented by R.Pol)
Poppe,H.: Jeschek,F., Poppe,H. and Stärk,A.	A compactness criterion for the space of almost periodic functions (Presented by H.Poppe)
Porst,H.E.	Embeddable spaces and duality
Preuss,G.	Relative connectedness and disconnected- ness in topological categories
Prodanov,I.	Minimal topologies on Abelian groups
Pták,P.	Refinements of uniform spaces associated with discreteness
Reed,G.M.	Consistency and independence results in Moore spaces
Reichel,H.C.	Some results on distance-functions
Reiterman,J.: Pelant,J. and Reiterman,J.	Atoms in uniformities and proximities (Presented by J.Pelant)
Rice,M.D.	Descriptive sets in uniform spaces
Riečan,B.	Extension of measures and integrals by the help of a pseudometric
Richardson,G.D.: Kent,D.C. and Richardson,G.D.	Some product theorems for convergence spaces (Presented by D.C.Kent)

Rödl,V.: Nešetřil,J.
and Rödl,V.   Some topological Ramsey-type problems
                                (Presented by J.Nešetřil)

Roitman,J.   Some topological effects of random and
                                Cohen reals

Rosický,J.   Liftings of functors in topological
                                situations

Ryškov,S.S.   O centrirovkach mnogomernych rešetok

Schmets,J.   On spaces of vector-valued continuous
                                functions

Schrijver,A.   Characterizations of supercompact spaces

Schröder,J.   Wallman´s method (Das Wallman-Verfahren)

Segal,J.   Local behavior in shape theory

Sekanina,M.   Topologies on 2^X

Seyedin,M.   On quasi-uniform convergence

Simon,P.   Uniform atoms on ω

Šostak,A.   A class of spaces which contains all
                                connected and compact spaces

Stärk,A.: Jeschek,F.,
Poppe,H. and Stärk,A.   A compactness criterion for the space of
                                almost periodic functions (Presented by
                                H.Poppe)

Stavrinos,P.: Stavrinos,P.
and Patronis,A.   On hyperspace of continuous curves and
                                continuous hypersurfaces of any order
                                (Presented by P.Stavrinos)

Švedov,I.A.   Ob ocenke metričeskoĭ razmernosti
Švedov,I.A.: Kuz´minov,V.I.
and Švedov,I.A.   O gomologičeskoĭ razmernosti Bredona na-
                                sledstvenno parakompaktnych prostranstv
                                (Presented by V.I.Kuz´minov)

Szymański,A.   P-points in $\beta\omega - \omega$ under some weak addi-
                                tional set-theoretic assumptions

Talamo,A.   Extensions and structures

Tall,F.D.   Some topological applications of a
                                generalized Martin´s axiom

Tashjian,G.   Exponential operations in coreflective
                                subcategories of Tych and Unif

Telgársky,R.   On some topological games

Terpe,F.: Flachsmeyer,J.
and Terpe,F.   On convergence structures in the space of

summations (Presented by F.Terpe)

Thron,W.J.: Chattopadhyay,K.C.
and Thron,W.J.   Extensions of closure spaces
                                  (Presented by W.J.Thron)

Vaughan,J.E.   Products of [a,b]-chain compact
                                  spaces

Van de Vel,M.   The fixed point property of super-
                                  extensions

Venkataraman,M.   On topological invariants of topo-
                                  logical spaces

Vilímovský,J.   Extensions of uniformly continuous
                                  Banach valued mappings

De Vries,J.   Embeddings of G-spaces

Wage,M.L.   On a problem of Katětov

Waszak,A.: Musielak,J.
and Waszak,A.   Some problems of convergence in
                                  countably modulared spaces (Presented
                                  by J.Musielak)

Wattel,E.   Subbase structures in nearness spaces

Weiss,W.   Some connected problems

Wichterle,K.   Joint convergence in function spaces.
                                  Order of W-closures

Wicke,H.H.: Wicke,H.H.
and Worell,J.M.,Jr.   Scattered spaces of point-countable
                                  type (Presented by H.H.Wicke)

Wilhelm,M.   On closed graph theorems

Worell,J.M.,Jr.: Wicke,H.H.
and Worell,J.M.,Jr.   Scattered spaces of point-countable
                                  type (Presented by H.H.Wicke)

Van Wouwe,J.M.   Generalized ordered p-spaces

Zahradník,M. ℓ_1-partitions of unity on normed
                                  spaces

Zarelua,A.   On zero-dimensional mappings and
                                  commutative algebra

Zaremba,D.   On cohesive mappings

Zemánek,J.   On the spectral radius in Banach
                                  algebras

Zenor,P.: Alster,K. and
Zenor,P.   Preservation of the Lindelöf propert
                                  in product spaces (Presented by
                                  P.Zenor)
